(54) Title: METHOD AND SYSTEM OF COMPUTING AND RENDERING THE NATURE OF ATOMS AND ATOMIC IONS

WO 2005/067678 A3

(57) Abstract: A method and system of physically solving the charge, mass, and current density functions of atoms and atomic ions using Maxwell's equations and computing and rendering the nature of bound using the solutions. The results can be displayed on visual or graphical media. The display can be static or dynamic such that electron spin and rotation motion can be displayed in an embodiment. The displayed information is useful to anticipate reactivity and physical properties. The insight into the nature of bound electrons can permit the solution and display of other atoms and atomic ions and provide utility to anticipate their reactivity and physical properties.
